

CONSULTING

Government work is fast-paced, and it's hard to anticipate emerging needs. QCS consultants help government agencies thrive in this environment. From pilot programs to emerging challenges, we put your goals within reach.

BRINGING BIG IDEAS TO LIFE

QCS uses a customized, data-driven consulting model. Our services result in actionable recommendations that add value and creativity to your work. To align our services with your needs, we use a 3-step consulting method:

1. Gather perspectives & analyze data
2. Identify needs & opportunities
3. Provide actionable, data-driven recommendations

The QCS Difference

20+ years of experience

Proven strategies & approaches

Innovative & flexible support

Global reach in 100+ countries and cultures

ABOUT QCS

With 20+ years of public service experience, QCS helps government agencies meet rising expectations. Our services include project management, research, cultural expertise, workforce training, & consulting. Using innovation & expertise, QCS empowers agencies to:

- Deliver high quality programs
- Make data-driven decisions
- Build relationships
- Affect change

SAMPLE WORK

Economic Conditions Study

This federally funded project assessed the monthly cost of living stipends for 1000+ federal programs. QCS developed a custom data set of over 100,000 data points including narrative data, survey responses, government data sets, and focus group feedback. Deliverables included budget recommendations and a strategic plan.

Scholarship Alumni Consulting

QCS consultants used focus groups, surveys, and informational interviews to develop alumni engagement platforms for federally funded programs. Deliverables included a strategic plan, sample outreach materials, training manuals. Workshops were developed for stakeholders from 30+ locations. The project was federally funded.
